EDUCATION

SEV American College **September 2023 - Present**

- International Baccalaureate Diploma Programme (IBDP), Turkish National Education Diploma (MEB)
- 9th Grade GPA: 90.77, 10th Grade GPA: 91.18
- HL; Mathematics Analysis and Approches, Physics, Computer Science SL; English A Language and Literature, Turkish A Language and Literature, Turkey in the Twentieth Century (TITC)

Python Programming and Mathematics, Aziz Nesin Mathematics Village **August 2025 (2 weeks)**

- Applied Python and mathematical modeling, strengthening the link between mathematics and coding.

AI & Machine Learning Programme, Immerse Education, University of Oxford **July 2025 (2 weeks)**

- Learned neural networks and analysis under Prof. Mohammedreza Soltaninejad; covered AI, ML, and deep learning.
- Developed a financial forecasting bot using 180 days of stock data and 28 macroeconomic indicators.

Quantum Programming Exploration, QTurkey **April 2025 (2 weeks)**

- Studied quantum computing fundamentals, including qubits and operators, and explored Qiskit based programming.

PROJECTS

LSTM - Based Stock Price Prediction System (Patent Application) **April 2026**

- Developed a multi layer LSTM model for time series forecasting; optimized time windows and hyperparameters.
- Designed and deployed the system; patent application filed. No: 2026/004897

AI Financial Forecasting Bot - www.hamdiai.com **August - September 2025**

- Built and trained a neural network with Python and TensorFlow using 5 years of stock data and 28 macroeconomic indicators.
- Evaluated model performance and documented insights on Medium under the title “Stock Prediction.”

Flying Up - 3D Indie Game Development **April - July 2025**

- Designed, developed, and published a 3D game on Steam using C# and Unity, applying trigonometry and vector mathematics.
- Reached 41 downloads and generated $41 in revenue. https://store.steampowered.com/app/3665050/Flying_Up/

EXPERIENCE

Independent Research Writer, Medium https://medium.com/@ardaunal1000/ **October 2025 - Present**

- Document and analyze the development of an LSTM-based stock prediction system, detailing model design, data selection, and experimentation.
- Examine ethical implications of AI in financial markets, focusing on black-box models and inequality.

Digital Citizen Ambassador and Writer, SEV American College School Magazine **September 2025 - Present**

- Analyze the impact of social media on human behavior, including loneliness, comparison, and digital overexposure.
- Published 3 articles in the school magazine as part of the Digital Impact initiative.

President, SEV American College Mathematics Competition Club **September 2025 - Present**

- Lead a team for the Purple Math Competition, organizing preparation and coordinating team efforts.

Engineering Intern, Meyer Group **July 2025 (1 week)**

- Assisted in final testing of security systems to ensure reliable hardware-software integration.
- Observed end-to-end development of access control technologies and contributed to minor production workflow improvements.

Member, SEV American College Phoenix AI Club **September 2024 - June 2025**

- Led ethical review discussions on AI projects, focusing on bias and responsible AI.

Community Engagement Lead, SEV American College FRC Robotics Club **September 2023 - June 2024**

- Designed and led a robotics workshop for 80 kindergarten students, teaching basic algorithmic thinking.
- Introduced AI, robotics, and digital creativity tools; event featured in the school magazine.

HONORS & AWARDS

University of Waterloo Cayley Mathematics Competition - School Champion **(2024, 2025)**; CEMC Cayley Medal **(2025)**

Turkey Intelligence Foundation National Exam - 43rd **(2025),** 52nd **(2024)**

ASMA Mathematics Competition - 2nd **(School Level, 2025)**

ABRSM Grade 8 Certificate - Royal Academy of Music **(2025)**
